ACTUATOR MI-41 telescopic stem

Benefit

This actuator has been designed to be used in heavyduty applications. Even though it looks like the 3000 series, it has a 30 mm diameter steel removable tube and inside a 19mm diameter screw assembled on 3 metal bearings. The maximum declared pull load is

6000N but it supports loads up to 8000N. It is also equipped with adjustable limit microswitches.

Technical features

Max stroke: 700 mm Max load: 6000 N

Rear attachment: 0° - 45°- 90° -135° Supply cable length: 500mm - 1000mm

Configuration (max load - speed no load)
