Benefit: The manual **STILE extended** is a pop-up headrest disappearing inside the frame. Its high efficiency, the quality of the materials and its reduced size allows a deep versatility and different usage possibilities according to the design and to the ergonomics of the sofa.

This headrest guarantees a high comfort level in all its different positions, from the closed one to the TV position. In this latter position, the cervical support allows the end-user to keep a correct posture and to use the product in comfort.
